Notice Pursuant to the National Cooperative Research and Production Act of 1993—Inter Company Collaboration for Aids Drug Development

Notice is hereby given that, on September 15, 1997, pursuant to Section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. § 4301 *et seq.* ("the Act"), Inter Company Collaboration for Aids Drug Development (The Collaboration) filed written notifications simultaneously with the Attorney General and the Federal Trade Commission. The notifications were filed for the purpose of extending the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances.

As indicated in its previous filings, the Collaboration is intended to facilitate more efficient concomitant and/or comparative research on HIV antiviral compounds through the sharing of scientific information among its members, the sharing of compounds to conduct appropriate investigations for clinical research, and the coordination of certain clinical trials conducted independently by certain of its members. A purpose of this filing is to confirm that these activities of the Collaboration encompass gene therapy related to the treatment of HIV infection and AIDS.

The Collaboration may also engage in the collection, analysis and exchange of research information, including information on statistical techniques applicable to AIDS research with other groups or entities engaged in research

on HIV and AIDS, as well as within the Collaboration.

In addition, the Collaboration may, as an organization, engage in scientific and policy discussions with governmental agencies (including FDA and NIH). This activity may involve development, exchange and analysis of scientific information within the Collaboration, and presentation, analysis and discussion by the Collaboration with government agencies. Such discussions may include consideration of the appropriate surrogate markers for approval of AIDS anti-viral drugs and innovative statistical techniques to address issues presented by AIDS drug clinical trials. This activity may also involve the development and presentation of regulatory positions by the Collaboration to governmental agencies.

Although no changes have been made in the membership of the Collaboration, Collaboration member AJI PHARMA USA, Inc. has merged with its parent, Ajinomoto Co., Inc.; Collaboration member Triangle Pharmaceuticals Inc. has acquired Avid Corporation by merger with a subsidiary; and Collaboration member Ciba-Geigy AG has merged with Sandoz AG to form Novartis AG. As a part of the merger process, the Ciba-Geigy pharmaceutical operations, including its membership in the Collaboration, became part of Novartis Pharma AG, Novartis, pharmaceutical operating subsidiary. Membership in the Collaboration remains open.

On May 27, 1993, the Collaboration filed its original notification pursuant to Section 6(a) of the Act. The Department of Justice published a notice in the **Federal Register** pursuant to Section 6(b) of the Act on July 6, 1993 (58 FR 36223). The last notification was filed with the Department on August 23, 1996. A notice was published in the **Federal Register** on September 17, 1996 (61 FR 48982).
